guardian of Isaac Keen, an insane person who has an estate valued at \$250.

**Martha Seliga Pleads Guilty to Petty Larceny.**  
Yesterday afternoon a rather good-looking young English woman who gave the name of Martha Seliga, was before Justice Austin on a charge of petty larceny, to which she pleaded guilty.

Several days ago Martha secured employment with the family of Mr. Moss, who lives on Temple street, as a domestic. In the evening of the day on which she came to Mr. Moss's house, his daughter, Mrs. Maas, went to a closet to get her cloak, as she wished to go up town. The garment

as not in its accustomed place, and Martha, securing a candle, assisted the lady in looking for it. The house was searched thoroughly, but no trace of the missing garment could be found. Shortly after, Martha said she wished to go to her room to write a letter, and taking up a lamp, retired and shut the door. A quarter of an hour later Mrs. Maas called her, and receiving no an-

wer, entered the room, which was unoccupied, the girl having evidently gone out another door which led into the yard, from which she could make her way to the street unobserved. Shortly after Martha's disappearance it was discovered that a valuable diamond ring belonging to Mrs. Maas was also missing.

quarters, nor was anything said about it. Yesterday afternoon, however, as Mr. Maas was walking up Spring street, he saw a woman standing on the sidewalk talking to a man, and wearing his wife's cloak. On looking closely, he recognized the woman as the missing Martha, who not only was wearing his wife's cloak, but also had the diamond ring on her finger, and walking

to her, he asked her where she got the cloak. Martha replied that she had brought it from England with her two years ago, and also the ring. As there was no question about the ownership of the cloak and ring Mr. Maas called an officer and the woman was taken to the station.

She was almost immediately taken before Justice Austin, where she pleaded guilty.

From what could be learned, the woman was worked in a number of well known families in the city, but so far as could be ascertained, this was the first time she had ever stolen anything.

overstolen anything. She is the wife of a musician named Seilga, who lives on Wilmington street, and who has been playing the piano in various disreputable houses about the city. Her husband was at the police station last evening to see his wife, and insists that there must be some mistake about the matter, as he says that she is a respectable woman, and has never been in

**HISTORICAL SOCIETY.**  
Number of New Members Elected—  
Board of Directors.  
The Historical Society of Southern California met last night, President G. B. Griffin in the chair.

The names of Isaac W. Lord, Eulogio F. de Cells, F. H. Thompson, Theodore Savage, Romulo Pico, Samuel Hamilton and N. Coury were proposed for active membership and laid over one month under the rules.

The names of Mrs. Jeannie C. Carr of

The society voted to publish the list of Pacific Coast shells prepared by Mrs. W. B. Williamson.

Gen. John Mansfield moved to reconsider the vote to incorporate the society. The motion was lost by 13 yeas, against 9 yeas. The report of the special committee on incorporation, reporting the articles of incorporation, was received and adopted. The society then selected a board of directors.

The secretary reported a donation of valuable old papers from Dr. H. S. Orme and R. Clifford, and a set of files of the late Los Angeles Tribune from Harry T. Payne, for all of which a vote of thanks was re-

The Los Angeles Bar Association were invited to assist in securing the translation of the Spanish archives in the City Hall. Resolutions were adopted asking Congress to have the Spanish archives in San Francisco translated into English. The matter of securing quarters in the new County Courthouse was referred to the

The inaugural address of President Griffin was read and the society adjourned.

**MRS. SUSAN HAWKINS.**

**The Mystery of Her Disappearance Unexplained.**

The mystery of the disappearance of Mrs.

Susan Hawkins still remains unexplained. Her friends have not, however, relaxed their efforts to ascertain what has become of her, and every effort that can be put forth to solve the question as to what became of her or where she went to, is being made.

The theory has been advanced by some that perhaps the lady did not drown herself or take her life in any other way. It has been suggested that possibly she went into

A well-known attorney made the astonishing statement to a TIMES reporter yesterday that he had seen Mrs. Hawkins on Spring street in front of the Jones Block Saturday afternoon. At the time he said

This information only tends to deepen the mystery surrounding the lady's disappearance.

The Board of Supervisors met yesterday, but owing to the fact that the greater portion of the day was spent in passing on demands and in disallowing illegal charges, but little routine business was transacted.

The following resolution was adopted on motion of Supervisor Davis:

WHEREAS, Upon report of I. Cowper, County Stock Inspector, that there exists among certain cattle in Sycamore Cañon of this county a disease supposed to be anthrax, it is ordered that I. Cowper be au-

authorized and directed to quarantine this band of cattle pending an investigation of said alleged disease.

Certain changes were ordered to be made in the arrangement of the furniture for the new Courthouse in accordance with the suggestion and at the request of some of the county officials.

The sum of \$430.27 was ordered trans-

ferred from the Redondo road district to the Ocean Beach road district, owing to a change of name.

---

**Bold Robbery.**

Yesteday afternoon, between 1 and 2 o'clock, Frank Murray, John Orr and Andrew Wood, three toughs who are more or

less acquainted in police circles, were arrested on First street by Officer Hawley and locked up on a charge of robbery.

"Maj" Twine, the colored politician, was in the saloon at the corner of Main and First streets drinking, and had just received his charge, which he held in his hand, when one of the gang struck him, knocking the

money on the floor. Twine reached down to gather up his scattered coin, when one of the gang put his foot down on the outstretched hand with considerable violence. At this Twine straightened up and made for the robbers, when they broke and ran, with the "major" in hot pursuit. Hawley was attracted by the excitement, and the result was that the entire gang were captured.

## ANOTHER POW-WOW.

## Sioux Chiefs Again Talk to the Great Father.

Commissioner Morgan Tired of Hearing of the Past.

The Braves Opposed to Having Military Men for Agents.

Other Washington Despatches—Senator Hearst Continues to Grow Weaker—Heading Off the Free Coinage Advocates.

By Telegram to The Times. WASHINGTON, Feb. 9.—[By the Associated Press.] The conference with the Indians was resumed today. Commissioner Morgan said he had heard enough of the past and wanted the plans for the future. He was prepared to issue \$100,000 worth of beef to Indians entitled to receive it, which was cut off in the past.

Senator Dawes said if the Indians did their part and were industrious the Government would do its part and help them to become self-supporting.

White Ghost spoke of the encroachments of the whites upon Indian lands. The ration of coffee, he said, amounted to about 100 grains per week to each person, and he complained of the smallness of the ration. He said the delegation had reached the reservation and decided that they did not want a military agent.

Big Mane of the Lower Brule agency said the whites prevented the Indians from getting fuel and hay. He wanted the agency moved nearer. They needed better school facilities. He complained of the small size of the beef cattle given them. Little No Heart spoke in the same vein.

Commissioner Morgan asked such of the Indians as preferred civil agents to stand up. All did so except Maj. Swords, chief of the Indian police at Pine Ridge, who preferred military agents.

Mad Bear, from Standing Rock, said his people insisted on more reservation schools. If schools were located on the reservations their influence would be felt not only by the pupils, but by the parents as well.

THE SILVER STRUGGLE.

An Effort to Checkmate the Free Coinage Men.

WASHINGTON, Feb. 9.—[By the Associated Press.] Mr. Dingley offered for reference in the House today a resolution as an amendment to Mr. Townsend's resolution designed to bring the Silver Bill before the House. Mr. Dingley's amendment makes it in order to offer as an amendment to any appropriation bill the substance of any bill that has passed the House and been before the Senate for six months without result. The obvious purpose of this amendment is to embarrass the silver men by loading their original proposition with amendments looking to the attachment of the Elections Bill to an appropriation bill as a rider.

About fifteen Republican representatives met tonight to discuss the present phase of the Senate Silver Bill. While the extreme silver men were unwilling to accept anything that did not embody the free coinage idea, several more conservative measures were discussed, among them the free coinage of the American product, and a plan of campaign by which it is hoped to bring the House to a vote upon the silver question was outlined though not formally agreed upon. Representative Wilcox of the House Coinage Committee said tonight that the Senate Silver Bill will be reported this week. There will be two reports: an adverse one, signed by Messrs. Wickham, Walker, Comstock, Chapp and Taylor (Republicans), and Tracy, Wilcox and Vaux (Democrats). The favorable report will be signed by Messrs. Carter and Bartine (Republicans), and Bland and Williams (Democrats).

THEY MUST PAY UP.

Government Claims Against the Pacific Railroad to Be Pressed.

WASHINGTON, Feb. 9.—[By the Associated Press.] It is learned from a letter recently sent by Mr. Taylor, Commissioner of Railroads, to the Secretary of the Interior that action is about to be taken under the recent decision of the Supreme Court of the United States, in the case of United States appellant, vs. the Central Pacific Railroad Company. This decision reverses the decision of the Court of Claims in which it was held that in the process of construction the net earnings of the Union and Central Pacific railroad companies, upon which 25 per cent. is required to be paid to the Government under the Thurman Act, is to be proper to deduct from the gross earnings not only the actual operating expenses, necessary repairs and interest on first mortgage bonds, but also there should be deducted all sums paid for improvements, betterments and taxes. The Supreme Court reverses this decision and holds that under the Thurman act the net earnings must be ascertained by deducting from the gross earnings only the actual operating expenses, necessary repairs and interest on first mortgage bonds. Under this method of calculation the net earnings of the Central Pacific Company would be increased over \$2,000,000 and the net earnings of the Union Pacific Company nearly \$7,000,000. The passage of the Thurman act, 25 per cent of which sums will now be recovered by the Government.

Commissioner Taylor, under orders from Secretary Nathan, had a conference with the Acting Secretary of the Treasury with a view of getting a full report of all bills for services of Union and Central Pacific companies on file in the Treasury Department and not acted upon. It is intended to ascertain accurately the state of accounts between the Government and these roads, and then insist upon prompt payment of amounts found to be due.

A PROHIBITION BILL.

Sweeping Anti-alcohol Measure Reported.

WASHINGTON, Feb. 9.—[By the Associated Press.] Representative J. D. Taylor of Ohio today reported to the House from the Committee on the Alcoholic Liquor Traffic a bill to prohibit the importation and exportation and interstate transportation in violation of local laws relative to alcoholic beverages.

The report accompanying the bill says that the danger to public safety and public morals will not much longer

## ALONG THE COAST.

## The Supervisor Contest in Orange County.

A Sanger Firebug Caught in the Act and Locked Up.

He Is Supposed to Have Caused Several Conflagrations.

Prof. Hilgard Discovers That California Sweet-Wine Men are Defrauded by the Government's Official Tests.

By Telegram to The Times.

SANTA ANA, Feb. 9.—[Special.] The contest for Supervisor of the Third Supervisor District of Orange county assumed another phase today, Louis Schorn demanding his seat, and incumbent Littlefield retiring. Littlefield asked for a polled vote of the board, which resulted in a unanimous vote in favor of Schorn. Littlefield filed a protest asserting that the board declared on October 13, last that there could be no vacancy until January, 1893, and he further protested that the board has not declared a vacancy to exist and that it virtually ejects him from the place to which he is legally entitled.

A SANGER FIREBUG.

Detected in the Act and Promptly Placed Behind the Bars.

FRESNO, Feb. 9.—[By the Associated Press.] Sanger has recently been the victim of three disastrous conflagrations and that a fourth did not occur is due to the efforts of the nightwatchman of the Rose Block who succeeded in extinguishing a lively blaze.

About 2 o'clock this morning when the watchman was making his rounds he saw a man touch off some loose shavings in the rear and against the wall of the Rose Block. He hastened to the spot, and after extinguishing the flames stood in pursuit of the incendiary, whom he captured and turned over to Constable Phillips. He proved to be a man named Edward Schooley, well known to all officers of the county, having served eight years in the county jail for being drunk and disturbing the peace, but was never before charged with a serious crime.

Schooley was locked up in the county jail this afternoon and refused to talk of his crime. The Herald's Washington correspondent says: "There are good grounds for belief that President Harrison is considering John F. Swift of Illinois in connection with the Treasury portfolio. It was his intention to find him a place in the Cabinet long before his induction into office, and he would have done so had the California politicians not urged the appointment of M. M. Ester. The President did not want Mr. Ester, and so bluntly informed the Californians, but under the circumstances he felt that he could not consistently appoint Mr. Swift, and he therefore left the Coast out of his Cabinet consideration altogether, but he took the earliest opportunity of testifying in regard for Mr. Swift by nominating him as Minister to Japan within forty-eight hours after his inauguration. One of the reasons given for Mr. Swift's selection to the Cabinet place is that while he would represent the very best of silverdom, he is personally in full sympathy with eastern thought upon the money question. California politicians believe Mr. Swift has already been communicated with by cable on the subject and that if he will accept the vacant portfolio it will be given to him."

Prof. Hilgard Finds Errors in the Government Methods.

SAN FRANCISCO, Feb. 9.—[By the Associated Press.] Prof. Hilgard of the University of California claims to have discovered a serious error in the Government tables for the determination of alcohol in sweet wines by the saccharometer. It is announced to be a determination by volume, but Hilgard says it is one of weight, which involves a discrepancy of one-fifth between the Government test and his own. It places the winemakers in jeopardy for having too much or too little alcohol and changes the claims which their wines are put forth inflicting upon them great injury. Prof. Hilgard has sent his information to Commissioner Mason at Washington.

Baseball at Fresno.

FRESNO, Feb. 9.—The All Californians played the Fresno club today with Cahill and Hardie as the battery for the visitors, and Stapleton and Stanley for the home team. The visitors made eight base hits off Cahill. Score: All Californians, 6; Fresno, 4.

ELECTING A STATE PRINTER.

What Is to Be Gained By Such a Measure?

[Sacramento Record-Union.] The Los Angeles Times reproduces the Record-Union's article advocating the passage of the bill providing that the office of Superintendent of State Printing shall be filled by election. But THE TIMES objects to the statement we made that such a system will secure to the State competent superintendents, because the draft will inspire the political parties to put up only competent men. THE TIMES says that, as a matter of fact, political conventions very often nominate incompetent men and those who are lacking in many independence. But the error in the Record-Union in the fact that the cases to which it refers are not those in which a workman is chosen. Unquestionably, we have many instances of conventions nominating men for ministerial and executive offices who prove to be weak and incompetent. But in the case of one who must, under the law, be qualified as a master job printer, or rather as a master workman, and who is recognized by the craft as such, the risk of a really incompetent man being chosen will be exceedingly remote. The reason is obvious. The printing fraternity know who are and who are not competent; they will be on the alert to elect the best man, and an incompetent man is a man who is not a printer. The printer is pretty evenly divided among the political parties. Each party convention will, therefore, feel the necessity of putting forward a candidate who will be as good as the best its opponent can possibly select. As a result, no matter what party triumphs, we will have a competent man in the office.

What the Record-Union meant by independent candidate, or the successful one, it thinks it stated so clearly that those who read with ordinary care cannot fall into error. What we said and mean is this: that the official who does not owe his position to the appointment of some other official, and who is responsible only to the Legislature, is by the ordinary necessities of the situation made independent, as compared to the man who is subject to another, and that other

## FIFTY-FIRST CONGRESS.

## SECOND SESSION.

WASHINGTON, Feb. 9.—[By the Associated Press.] Senate.—By a vote of yeas 28, nays 20, the Senate refused to reconsider the vote of Saturday recommending the Eight-hour Bill to the Committee on Education and Labor; the bill therefore stands recommitted.

The Senate took up the House Copyright Bill and Mr. Platt made a brief explanation.

Mr. Frye offered an amendment extending the principles of the bill to maps, charts, dramatic or musical compositions, engravings, cuts, prints, chromos and lithographs.

After a long debate the lithograph amendment was agreed to—yeas 27, nays 24.

Mr. Sherman moved to amend section 4 by striking out the words "prohibited" and inserting in lieu thereof the words "subject to duties provided by law," so that books, etc., copyrighted here and printed abroad, shall not be prohibited, but shall be subject to the payment of tariff duties. The amendment went over without action.

The Senate took a recess till 3 o'clock p. m. No quorum was then present and the Senate adjourned.

House.—The House went into Committee of the Whole on the Sundry Civil Bill. Its consideration was completed and the committee proceeded to discuss the Legislative Appropriation Bill. The general debate was postponed until tomorrow and the bill was read by paragraph for amendment.

Mr. Hayes of Iowa offered an amendment providing clerks to Representatives, with a salary of \$6 a day. After some discussion this amendment, which amendment fixing the salaries of clerks at \$100 a month, was agreed to.

The committee then rose and the Sundry Civil Bill was passed. The Senate amendment to the Fortification bill was non-concurred in. Adjourned.

## THE VACANT PLACE.

JOHN F. SWIFT MAY SUCCEED WINDOM.

Consul-General New Says He Has Not Been Offered the Treasury Portfolio and Wouldn't Take It.

By Telegram to The Times.

NEW YORK, Feb. 9.—[By the Associated Press.] The Herald's Washington correspondent says: "There are good grounds for belief that President Harrison is considering John F. Swift of Illinois in connection with the Treasury portfolio. It was his intention to find him a place in the Cabinet long before his induction into office, and he would have done so had the California politicians not urged the appointment of M. M. Ester. The President did not want Mr. Ester, and so bluntly informed the Californians, but under the circumstances he felt that he could not consistently appoint Mr. Swift, and he therefore left the Coast out of his Cabinet consideration altogether, but he took the earliest opportunity of testifying in regard for Mr. Swift by nominating him as Minister to Japan within forty-eight hours after his inauguration. One of the reasons given for Mr. Swift's selection to the Cabinet place is that while he would represent the very best of silverdom, he is personally in full sympathy with eastern thought upon the money question. California politicians believe Mr. Swift has already been communicated with by cable on the subject and that if he will accept the vacant portfolio it will be given to him."

London, Feb. 9.—John C. New was asked if there was any truth in the statement that President Harrison had called him to the subject and that if he will accept the vacant portfolio it will be given to him.

NEW YORK, Feb. 9.—The visible supply of grain, as compiled at the Produce Exchange is: Wheat, 23,359,000 bushels, a decrease of 499,000; corn, 2,592,000, a decrease of 50,000; oats, 3,218,000, a decrease of 30,000; barley, 3,350,000, a decrease of 9,400.

## FOREIGN FACTS.

France levies a tax of 2 per cent. on all bets on races.

One of the employees of the postal telegraph office in St. Petersburg has invented a watch which will run forty-five days at a single winding.

A French statistician alleges that within the French capital twice as many persons are committed by persons between the ages of 15 and 25 as between the ages of 20 and 40.

The results of the recent expedition to Greenland prove that north of 75° the land is covered with a sheet of ice 5000 to 6000 feet thick over the valleys.

In Switzerland every man is his own assassin. In that country, after a man's death, the government carefully investigates his estate, and if he has been defrauding the treasury it collects the back taxes with interest.

Comtesse de Mailly-Nesle, one of the prettiest of Parisian women, is a blonde, with an elegant figure and a queenly carriage. Her hair is of liquid gold, her eyes are blue and she is an accomplished artist and musician.

How Is Your Child?

Swift's Specific is the great developer of delicate children.

It regulates the secretions; it stimulates the skin to healthy action, and assists nature in development.

There is no tonic for children equal to S. S. S.

Send for our treatise on Blood and Skin Diseases.

Write to J. E. A. CHIPPEN, 211 S. Broadway, Los Angeles, Cal., for particulars.

Oranges, Roses, Strawberries. 4000 One acre, two acres, five acres, ten acres, or city lots can be purchased in this lovely spot at moderate prices. Write to J. E. A. CHIPPEN, 211 S. Broadway, Los Angeles, Cal., for particulars.

1000 Two-year-old roses in bloom; over forty of the choicest varieties; 25c to 50c each. Monarch strawberries, the best market berry; only 45¢ per thousand.

20,000 See E. H. CHIPPEN, Monterey Road, S. P. Adams, near Alhambra, and J. E. A. CHIPPEN, 211 S. Broadway, Los Angeles, Cal., for particulars.

THE INSRIPTION ON THE CORNER STONE OF THE NATIONAL CAPITAL.

Upon the corner stone of the Capitol at Washington is the following inscription upon a silver plate: "This southeast corner stone of the Capitol of the United States of America, in the city of Washington, was laid on the 18th day of September, 1793, in the thirtieth year of American independence, in the first year of the second term of the presidency of George Washington, whose virtues in the civil administration of his country have been as conspicuous and beneficial as his military valor and prudence have been useful in establishing her liberties, and in the year of Masonry 5793, by the president of the United States, in concert with the grand lodge of Maryland, several lodges under its jurisdiction, and Lodge No. 22, for Alexandria, Va."

The number of certificates in force in the Northwest Masonic Aid association Jan. 1, 1890, was 53,040, an increase of 5,009 certificates in 1889. The sixteenth annual statement, which is verified by the insurance department of Illinois, is before us, and from it we learn that the association's assets amount to \$347,551.80—a pretty healthy statement.

According to the report of the grand secretary, the Masonic year just closed has no equal in this jurisdiction for numerical increase, the totals for the state being: Initiated, 1,732; passed, 1,534; raised, 1,482, and membership, 29,717.

Bridgeport, Conn., is to have a Masonic hall costing \$50,000 on ground worth \$20,000.

The Masonic temple at Port Worth, Tex., was destroyed by fire, Sept. 12, 1890.

Kansas has a Masonic lodge named "Ben-Hur."

W. H. Gayle, of Newport, Ky., was the oldest Knight Templar who attended the twenty-fourth triennial convocation at Washington, D. C. He was born Jan. 4, 1801. He was raised 1822, exalted 1830 and dubbed 1839. He is also a member of Ohio sovereign consistory. For a man of 90 years he is remarkably well preserved.

Vermont claims the honor of having the two oldest living Freemasons in America—John H. Hollenbach, past secretary of the grand lodge of Vermont, initiated in 1813 and now residing at Burlington, and David McDaniel, of Johnston, Vt., initiated in 1814.

In India some lodges have four different books of the sacred law in use—the Bible, the Koran, the Zendavesta and the Mohabrat in companionship with Europeans, Hindus, Mohammedans and Parsees. Thus does Freemasonry unite those who might otherwise have remained at a perpetual distance.

There are many snowbirds abroad in the land, or young women who dress so much like them that they may be called by the title. White stuff frocks, white fur capes, tan gaiters and tan white hats are the fashionable equipment for ladies.

A sea-serpent, 100 feet long, was seen to coil itself up in slippery folds on the coast of Florida last month. Three reliable persons saw this creature distinctly.

Reader, the above is a "joke." If people would believe in the Golden Medical Discovery, it would be the means of saving thousands of lives. If people would believe in the Golden Medical Discovery, it would be the means of saving thousands of lives. If people would believe in the Golden Medical Discovery, it would be the means of saving thousands of lives.

It is taken in time and given a fair trial, will actually cure consumption of the lungs, which is really a curable disease. If this wonderful medicine does not do all we recommend, we will refund the money. It is not only the most wonderful medicine, but also possesses superior nutritive and tonic, or strength-giving properties, which assist the food to digest and become assimilated, thus building up both strength and flesh. For cases of Bronchitis, Throat and Lung Diseases, accompanied with lingering coughs, it is absolutely unequalled as a remedy. For Weak Lungs, Spitting of Blood, and kindred affections, it surpasses all other medicines.

\$500 REWARD is offered by the manufacturer of Dr. Sarg's Catarrh Remedy, for case of Catarrh of the Head which they cannot cure. By its mild, soothing, and healing properties, Dr. Sarg's Remedy cures the worst cases of Catarrh of the Head, or of how long standing. Fifty cents by druggists.

## I WILL SET ANY PORTION OF MY CRANGE GROVE TRACT FROM 5 ACRES UP TO 50 ACRES TO STRICTLY—

## First-Class Orange Trees, THREE YEARS' CARE

And will sell the Land, including Trees and Care, for \$500 PER ACRE.

This proposition means that you have no expense on the Orange Grove except the original purchase price for three years, or until the orchard comes to bearing. You have your choice of varieties: Navel, Malta, Blood, St. Michael, Bart's Tardiff, Homestead, Mediterranean Sweet Oranges, or Villa Franca Lemons.

If you want an Orange Grove, it will pay you to see the Orange Grove Tract and see what has been accomplished there in one year, and see the kind of care trees will have if you plant them and care for them.

Irrigating and domestic water delivered under pressure, one inch to each eight acres of land.

Investigate all the advantages of the Orange Grove Tract before you buy. A part of this Tract is in the city limits of Pomona and a part just outside the limits.

## CHINO RANCH AND CHINO.

The Site of the Largest Beet Sugar Factory in the United States and the United States Experiment Station.

Chino Ranch land extends to the borders of Pomona and Ontario—places noted for fruit culture, bee raising, etc. Much of the natural water will produce alfalfa, corn, etc., etc., without irrigation. The best artesian water is provided for decades and citrus fruit land and underlaid with thousands of acres. Excellent water a abundant on many square miles at from 8 to 25 feet deep. Thousands of acres of CHINO ORANGE LAND with the best artesian water for irrigation on trust till use of better use of seed drills, free, special experiments at cost, expert sugar beet farmer on the ground to freely give correct instructions.

Largest Beet and Sugar Factory in the United States. And will complete it next August, so as to work up the crop of this year. The sugar will be refined in Chino for market.

Farmers are kindly entreated to enter into contracts to grow beets because of the certainty of the crop and sure cash market at home on delivery to the factory in a few months after planting. The crop needs no housing, packing, boxing or holding for market. With a beet 12 inches in diameter and 10 inches long, wherever in Europe or the United States this industry has been established, land has gone up in value and the people greatly prospered. Experience has made it a sure grower and an orchard to fear for by cultivating sugar beets, between the rows, as proven at Watsonville.

Land rented to beet growers for cash or share of the crop, well furnished at cost on trust till use of better use of seed drills, free, special experiments at cost, expert sugar beet farmer on the ground to freely give correct instructions.

THE TOWN OF CHINO

Is a rapidly growing business point, situated near the center of the great Chino Ranch; has daily mail and W. P. & Co. Express; two railroads connecting with the S. P. Main line; telephone; telegraph; best of water under fire pressure, etc., and is surrounded for miles by the richest land.

Land and lots for sale at reasonable prices on favorable terms. This United States Experiment Station, owned by RICHARD W. HILD, owner, Chino, San Bernardino County, Cal., or by M. M. O'GORMAN, 175 N. Spring St., Los Angeles, Cal.

DO YOU buy roses? We have them to suit all tastes in variety, size and price. Four inches to eight feet high and from 8¢ per dozen up. Tens of thousands of other plants that will please.
